Equality Analysis / Human Rights Assessment completed	Not Applicable

## Executive Summary

The November Rochdale Local Engagement Group (LEG) meeting was held at the Apnar Ghar centre on Tuesday 12<sup>th</sup> November 2019.

### Guest Presentations

#### **Single Access Point for Work & Skills Opportunities** Amanda Huntbach / Lloyd Orr, RBC

Members were informed how to refer in to the above service and what support is available for employees who are at risk of going off on sick leave or patients currently needing support from their employer. The service is also open to GP surgeries as independent employers to encourage a "healthy workforce".

#### **Organisation of Review of Care & Health Applications (ORCHA)** Lisa Simmons, ORCHA

A presentation was shared regarding this site which acts as a directory of Smart Technology Apps which can be used by/ recommended to patients as part of their chronic disease/ self care strategy.

#### **Well Family Pilot** Jayne Anderson, Family Action Group

Members were informed of the Well Family pilot and what this project can offer patients across our borough in terms of support to those who are experiencing practical, emotional, social, financial and physical difficulties.

### Usual Committee Business

As usual, papers and updates had been sent via email to all members.

### CPAP

Dr York gave feedback to members from November CPAP which was an Urgent Care Review Update. Slides were shown to members and any questions were answered.

Members were also updated on October's CPAP which revisited the topic of Diagnostics. Dr York was also able to share the views of the Primary and Secondary Care Interface Group of which she is vice-chair. This group agrees with the Your Test, Your Responsibility Guidance and also is keen to stop the transfer of phlebotomy to primary care. As this is the most commonly reported DATIX to the Quality and Safety Group, there may need to be a Task and Finish group set up to tackle this issue. The notion is to involve Primary Care Networks as well as Secondary Care.

### Workshop

The members were split into groups to generate ideas and issues on the topic of Prescribing in preparation for December CPAP.

The member's ideas and comments on the following themes were noted:

- Over the Counter Medications and the Community Pharmacy Minor Ailment Scheme
- Greater Manchester Medicines Management Group (GMMMMG) Guidance and shred care Protocols
- OptomizeRx and Pincer Tools
- Primary Care Network and CCG Clinical Pharmacists
- Antibiotic prescribing
- CRP testing
- FENO testing
- Communications
