Comments (Document should detail how the risk will be mitigated)	NA

Content Approval/Sign Off:	
The contents of this paper have been reviewed and approved by:	Assistant Director of Commissioning - Integrated Services HMRCCG/RBC, Karen Kenton
Clinical Content signed off by:	Not applicable
Financial content signed off by:	Not Applicable

	Completed:
Clinical Engagement taken place	Not Applicable
Patient and Public Involvement	Not Applicable
Patient Data Impact Assessment	Not Applicable
Equality Analysis / Human Rights Assessment completed	Not Applicable

Executive Summary

This paper provides as summary of the issues/items considered by Children and Young People's Partnership (CYPP) at its May meeting 2019 (the reporting officer was not in attendance at this meeting).

Items discussed at the meeting in May (minutes embedded below)

Report- update provided on No Wrong Door, from previous meeting a steering group has been established along with further stakeholder sessions. Regular updates on the progress will be given at each CYPP meeting.

Report- Childhood obesity update; It was agreed that this continues to be a continuing and growing problem, and one that needs a system wide approach. The Daily Mile has increased to 45% of schools taking part across the Borough and focused culturally appropriate work is planned in BAME communities where levels of obesity are noted to be higher. A bid has been submitted for funding with Milkstone and Deelish identified as a pilot area.

Report- Impact of Ofsted changes in schools; Information about the new inspection process was published last week during the SATS. How well this works won't be known until the first inspection takes place. Reading will be a focus alongside expectations of a wider curriculum that will be expected to reflect the needs of individual schools, its pupils and the place in which it operates.

Updates on the CYPP performance scorecard were given, Healthy Young Minds and #thrive are areas where significant progress has been made, with increased demand on services evident. HYM have been invited by NHS England as 1 of the top 3 productive CAMHS services in the UK to share information about how this progress has been achieved.

CHILDREN AND YOUNG PEOPLE'S PARTNERSHIP

MINUTES OF MEETING Thursday 23rd May 2019

PRESENT: Gail Hopper (Chair), Sandra Bowness, Jill McGregor, Julia Hassall, Councillor Kieran Heakin, Rachel Meyrick, Gillian Barratt, Councillor Rachel Massey, Louise Walker (on behalf of Jan Reynolds), Elizabeth Wilson, Julia Sandiford-Mitchell, Kirsten Buggy, Ben Rogers.

1. **APOLOGIES:** Jane Booth, Karen Kenton, Kylie Thornton, Councillor Sullivan, Kathy Thomas, Jan Reynolds, Kelly Baxendale.

2. **WELCOME AND INTRODUCTIONS**

The Chair welcomed everyone to the meeting and asked those present to introduce themselves.

3. **MINUTES**

It was agreed that the Minutes of the meeting of the Children and Young People's Partnership held 28th March 2019 be approved as an accurate record.

4. **MATTERS ARISING**

There were no matters arising from the previous meeting.

5. **NO WRONG DOOR**

Members received a presentation on the No Wrong Door Model, from Julia Hassall, providing an update on developments from the last time information was shared.

This is intended to be a sustainable and permanent cultural change in our approach to the way we work with young people and should not be seen as a change to a resource. Moving forward wider numbers of young people will benefit from this approach. It is about keeping children with families where safe to do so. North Yorkshire have closed 1 children's home on the back of their success, based on permanence and the principle of no child being unfosterable.

A significant portion of finance would come from mainstream funding of current resources and provision, with a smaller amount from innovation funding and partnership investment. There is also an opportunity for 20 Council's to be successful in a current DfE bid and we are 1 of the 37 that are able to apply.

The model should pay for itself once it is up and running effectively as external placements will reduce and this will save money.

It was agreed that a regular update would come to future meetings.

6. **CHILDHOOD OBESITY UPDATE**

Elizabeth Wilson presented this item and provided an update on progress to address this significant area of challenge.

It was agreed this continues to be a continuing and growing problem, and one that needs a system wide approach. There are a range of issues such as poverty, lack of parenting / cooking skills, cultural and lifestyle issues that all contribute to the challenge

The Daily Mile has increased to 45% of schools taking part. This figure doesn't include all schools if they haven't registered on the website, and many others may be doing other regular activity that is equally effective, but is not registered. This needs re-looking at to establish a more accurate picture. Shawclough Primary School for instance have a wake up walk every morning. Whilst all school meals provided are nutritional, the issue of portion control, particularly linked to packed lunches was highlighted as an issue.

A question was raised about whether some focused culturally appropriate work was planned in BAME communities where levels of obesity are noted to be higher. A bid has been submitted for funding with Milkstone and Deepdish identified as a pilot area should this be successful.

It was agreed that a regular update would come to future meetings.

7. IMPACT OF OFSTED INSPECTION CHANGES

Gillian Barratt presented a summary of changes to Ofsted inspections in schools.

Information about the new inspection process was published last week during the SATS. How well this works won't be known until the first inspection takes place.

Other changes were shared and Gillian responded to questions raised.

Reading will be a focus alongside expectations of a wider curriculum that will be expected to reflect the needs of individual schools, its pupils and the place in which it operates.

There was a discussion about healthy relationships and sex education being compulsory, and that a high number of objection letters, that didn't appear to have been generated in Rochdale have been received in some schools.

Shawclough Primary School didn't send any letters out, but have had a number of parents asking questions about what they have seen and heard on social media, which isn't reflected on the curriculum.

8. VIEW OF THE NEW AUTISM UNIT

Members of the Partnership were given a tour of the school and the new autism provision which opened in the last month.

9. REPORT ON CYPP PERFORMANCE

There has been some positive developments and a helpful report provided by Jackie Woodall.

Members' attention was drawn to a number of areas within the plan where demonstrable improvements and progress has been made. Similarly there are areas where targets are yet to be met that require further consideration and attention.

Healthy Young Minds and #thrive are areas where significant progress has been made, with increased demand on services evident. HYM have been invited by NHS England as 1 of the top 3 productive CAMHS services in the UK to share information about how this progress has been achieved. It was agreed an update on progress made would be provided at the next meeting.

Review / refresh of CYPP

The CYPP plan is due for review, in order that any updates can support how we move forward into 2019/20. This will be a major item at the next meeting.

10. DATE OF THE NEXT MEETING

It was noted that the next meeting of the Children and Young People's Partnership will be held on Thursday 25TH July 2019, on floor 1 at N1 Riverside, starting at 2.00pm

The Chair thanked everyone for their attendance and contribution.
