<b>Primary Care Commissioning Committee Resolution Required:</b>	For Information Only
<b>Recommendation</b>	The committee are asked to note the contents of the paper.

Link to Strategic Objectives	Contributes to: (Select Yes or No)
<b>SO1:</b> To be a high performing CCG, deliver our statutory duties and use our available resources innovatively to deliver the best outcomes for our population.	Yes
<b>SO2:</b> To deliver on the outcomes of the Locality Plan in respect of <b>Prevention and Access</b> (Prevention and Self Care)	No
<b>SO3:</b> To deliver on the outcomes of the Locality Plan in respect of <b>Neighbourhoods &amp; Primary Care</b> (Getting help in the Community)	Yes
<b>SO4:</b> To deliver on the outcomes of the Locality Plan in respect of <b>In Hospital - Planned</b> (Getting more help)	No
<b>SO5:</b> To deliver on the outcomes of the Locality Plan in respect of <b>In Hospital - Urgent Care</b> (Getting more help)	No
<b>SO6:</b> To deliver on the outcomes of the Locality Plan in respect of <b>Children, young people and families</b>	No
<b>SO7:</b> To deliver on the outcomes of the Locality Plan in respect of <b>Mental Health</b>	No

<b>Risk Level:</b> (To be reviewed in line with Risk Policy)	Not Applicable
<b>Comments</b> (Document should detail how the risk will be mitigated)	N/A

<b>Content Approval/Sign Off:</b>	
-----------------------------------	--

<b>The contents of this paper have been reviewed and approved by:</b>	Head of Primary Care, Sarah Crossley
<b>Clinical Content signed off by:</b>	Not applicable
<b>Financial content signed off by:</b>	Not Applicable

	<b>Completed:</b>
Clinical Engagement taken place	Not Applicable
Patient and Public Involvement	Not Applicable
Patient Data Impact Assessment	Not Applicable
Equality Analysis / Human Rights Assessment completed	Not Applicable

## Executive Summary

### Background

Core+ was first commissioned last year and is the first step in moving to a fully outcome-based commissioning framework. The specification has seven themes within it, that the provider is expected to deliver on, and are linked to improving access, quality and performance across the whole of the Rochdale borough.

Core+ 19/20 is now in year two of a three-year contract which was awarded to the Local Care Organisation who subcontract to the GP Federation, Rochdale Health Alliance, for the delivery of the Core+ indicators across all seven themes.

### Reporting and Monitoring

The requirements of the specification ask that for quarter three (2019/20) a full mobilisation plan is submitted evidencing progress to date and demonstrating that 50% of the indicators are on track to be achieved by year end. Regular reviews take place monthly to assess whether progress is being made and outcome are on track to be delivered by year end.

Following the receipt of Quarter 3 submission from the Local Care Organisation, I can confirm that more than 50% of indicators are on track to be achieved by year end and all required information was received from the provider.

All areas are progressing well and activities to date have given assurances that most of the annual targets are on track to be achieved. However, it is acknowledged that there are some indicators that aren't currently on track and for some there are mitigating factors outside of the providers control influencing these indicators. Below is a breakdown of these indicators.

#### 1. Breast Screening

The breast screening indicator has a target set of 75% to be achieved borough wide by the end of the financial year 2019/20.

It has been brought to our attention this year that the breast screening service goes in three yearly rounds and not every practice can influence the target, only practices who are in the round for that year can influence the target. This is currently being

investigated by the CCG and Public Health to ensure the indicator target is achievable, and an update will be brought to a future meeting.

## **2. Flu Indicators**

Unfortunately, again this year there has been national delays on the flu deliveries to practices. This has had implications for practices across the borough as it has meant that planned clinics have had to be cancelled and rearranged for a later date, meaning the flu season hasn't got underway as normal.

Practices have been sharing vaccines where possible and a piece of work has been completed by the provider to fully understand the borough's current position and when each practice's delivery are now due to take place. A full update will be brought to the next meeting detailing the boroughwide position on flu.

## **3. Signposting**

The signposting of urgent on the day demand in Primary Care is showing that numbers have decreased in the last quarter. The provider is undertaking an audit to ensure all data is being captured correctly, and the figures provided are a true reflection of signposting taking place in Primary Care.

A full relaunch of signposting is also being done over the next couple of months to ensure all staff within practices are aware of signposting and are carrying it out wherever appropriate.

## **4. Peer reviews**

Peer reviews have been taking place as outlined within the specification, however it has been raised that the current format doesn't always allow for enough time to have the detailed discussions required in peer reviews.

Discussions have taken place between the commissioner and provider and it has been agreed that a new format will be trialled to try and get the most out of them and ensure that as much learning as possible is being shared with all.

## **Recommendation**

The committee are asked to note the contents of this paper.
